Only development satisfying the requirements of this paragraph, paragraph 5.3 of this Conservation Restriction, and the requirements of paragraphs 74(j) and 74(k) of the Consent Decree shall be permitted in the Open Space AOC Property. All other development in the Open Space AOC Property shall be prohibited.

(a) Honeywell shall establish Open Space Design Standards that shall govern all development in the Open Space AOC Property, regardless of when the construction or installation of permissible development occurs. The Open Space Design Standards shall satisfy each of the requirements set forth in paragraph 74(j)(v) of the Consent Decree and paragraph 5.2(e) of this Conservation Restriction, and shall

set forth the requirements for development that are necessary for the protection of the integrity of the Chromium Remedy, installed pursuant to the Consent Decree.

(b) The Initial Development in the Open Space AOC Property shall be the development undertaken following the completion of the Chromium Remedy in the Open Space AOC Property, pursuant to the Consent Decree. The Initial Development may occur in one or more phases. Honeywell and Bayfront Redevelopment LLC shall prepare a Development Plan before the initiation of each phase of the Initial Development. The Initial Development Period for each phase shall consist of the period covered by the Initial Development, plus a period of 10 years following the submission of the as-built documentation for the phase pursuant to paragraph 74(j)(viii) of the Consent Decree and paragraph 5.2(h) of this Conservation Restriction.

(c) The Special Master, appointed in the Consolidated Litigation pursuant to the Consent Decree, shall have jurisdiction to review the Open Space Design Standards and the Development Plan(s) solely for the purpose of ensuring that any development undertaken during the Initial Development Period is consistent with the Consent Decree and with protection of the integrity of the Chromium Remedy. The Special Master's jurisdiction with regard to development in the Open Space AOC Property shall run through the Initial Development Period for each phase.

(d) Honeywell shall ensure that the requirements of this paragraph, paragraph 5.3 of this Conservation Restriction, and of paragraphs 74(j) and 74(k) of the Consent Decree are satisfied with regard to any development undertaken within the Initial Development Period. Honeywell shall also ensure that any

development undertaken within the Initial Development Period is designed and installed in a manner consistent with the requirements of the Consent Decree and with protection of the integrity of the Chromium Remedy installed pursuant to the Consent Decree.

(e) Any development undertaken in the Open Space AOC Property, regardless of when undertaken, shall satisfy each of the following requirements:

(i) It shall not jeopardize the integrity of the Chromium Remedy installed pursuant to the Consent Decree;

(ii) It shall be limited to the types of development permitted under paragraph 74(k) of the Consent Decree and paragraph 5.3 of this Conservation Restriction;

(iii) It shall be consistent with this Conservation Restriction, the Consent Decree, and the Redevelopment Plan; however, in the event of any conflict or inconsistency between this Conservation Restriction, the Consent Decree, and the Redevelopment Plan, the Consent Decree shall govern;

(iv) In total, at least 75% of the Open Space AOC Property, exclusive of the acreage used for roads and the pedestrian thoroughfare, shall be comprised of landscaping, as defined by paragraph 74(k)(xi) of the Consent Decree and paragraph 5.3(k) of this Conservation Restriction;

(v) The portion of the Open Space Design Standards necessary for protection of the Chromium Remedy as related to all roads, the pedestrian thoroughfare and associated utility corridors as well as the general location of such items shall be included in the 100% Design of the Chromium Remedy, which is

subject to review and approval pursuant to the terms of the Consent Decree;

(vi) If the lowest elevation for the bedding for any utility line, including irrigation or sprinkler lines, is two feet from the top of the warning layer of the cap, the utility line shall be placed in a utility corridor;

(vii) In any event, there shall be two feet of soil or more between the warning layer of the cap and the lowest elevation of the bedding for any irrigation or sprinkler lines; and

(viii) No permanent concession facilities shall be permitted.

(f) Honeywell shall submit the Open Space Design Standards and the Development Plan(s) for any development undertaken during the Initial Development Period pursuant to the requirements of paragraph 86(c) of the Consent Decree, except that such documents need not be submitted to NJDEP. Following Honeywell's submission of such documents, the procedures of paragraphs 86(d), 86(e), and 86(f) of the Consent Decree shall apply, except that the Special Master need not provide notice to NJDEP.

(g) During the Initial Development Period, any development in the Open Space AOC Property shall require the preparation and submission of a Development Plan pursuant to paragraph 74(j)(vi) of the Consent Decree and paragraph 5.2(f) of this Conservation Restriction, and such Development Plan shall be subject to review by the Special Master pursuant to paragraph 74(j)(iii) of the Consent Decree and paragraph 5.2(c) of this Conservation Restriction.

(h) Upon completion of each phase of the Initial Development, Honeywell shall provide as-built documentation for the Initial Development to the

Special Master, Riverkeeper, and Jersey City. Upon completion of any further development during the Initial Development Period for the phase, Honeywell shall also provide as-built documentation to the Special Master, Riverkeeper, and Jersey City for the additional development. Such additional as-built documentation for a phase shall not affect the running of the Initial Development Period for the phase.

(i) During the Initial Development Period, replacement in-kind of development features or facilities included in the Initial Development or minor modifications to the development features or facilities included in the Initial Development shall not require the preparation of a Development Plan or be subject to review by the Special Master, provided that such replacement or modification satisfies the requirements of the Open Space Design Standards, the applicable Development Plan, paragraphs 74(j)(v) and 74(j)(x)(3)(notice requirement) of the Consent Decree and paragraphs 5.2(e) and 5.2(j)(iii) of this Conservation Restriction.

(j) After the Initial Development Period, all development is prohibited unless one of the following conditions is met:

(i) The Open Space AOC Property has been remediated such that no hexavalent or total chromium contamination remains in the Open Space AOC Property, whether in soils or in groundwater, in excess of the levels specified for Unrestricted Use in the NJDEP Chromium Directive or any more restrictive standards for Unrestricted Use in place at the time, whichever is more restrictive, and Jersey City has demonstrated to the Special Master and/or the Court, as appropriate, that such remediation has been completed in accordance with all applicable requirements.

(ii) The development is a replacement in-kind and such

replacement is made in conformance with the specifications of the Open Space Design Standards, the applicable Development Plan, paragraph 74(j)(v) of the Consent Decree and paragraph 5.2(e) of this Conservation Restriction; or

(iii) The development meets the requirements of paragraphs 74(j)(v) and 74(j)(xi) of the Consent Decree and paragraphs 5.2(e) and 5.2(k) of this Conservation Restriction, and Jersey City provides notice of its intention to alter or add to the development undertaken in the Initial Development Period. Such notice shall be provided in writing to Honeywell, Riverkeeper, and the holders of this Conservation Restriction at least 30 days prior to Jersey City's alteration or addition to development undertaken in the Initial Development Period. Honeywell, Riverkeeper, or any holder of this Conservation Restriction shall have the right to move the Court to prohibit such alteration or addition.

(k) If any of the development features or facilities that Jersey City seeks to add, pursuant to paragraph 74(j)(x) of the Consent Decree and paragraph 5.2(j) of this Conservation Restriction, require utilities that would require utility corridors other than the utility corridors installed during the Initial Development Period, Jersey City shall obtain approval from the Court before installing such new utility corridors.

(l) Jersey City shall provide Honeywell, Riverkeeper, and the holders of this Conservation Restriction with an annual report that describes any alterations or additions, including those activities under paragraph 74(j)(x)(2) of the Consent Decree and 5.2(j)(ii) of this Conservation Restriction, to the development undertaken during the Initial Development Period.

(m) All development features or facilities, whether included in the

Initial Development or added subsequent thereto, are subject to demolition and/or removal to the extent necessary to maintain, replace, or repair the Chromium Remedy required by the Consent Decree.

5.3 The Initial Development or any subsequent addition or alteration thereto may include any or all of the following types of development features or facilities, provided that such development features or facilities satisfy the conditions set forth in paragraph 74(j)(v) of the Consent Decree and paragraph 5.2(e) of this Conservation Restriction:

(a) Roads and the pedestrian thoroughfare -- both crossing and running along the Open Space AOC Property, but no more extensive than provided for in the diagram on page 39 of the Redevelopment Plan;

(b) Curbing and fences;

(c) Sidewalks, paths, walkways, and nature trails;

(d) Utilities and utility corridors, lighting, and restrooms;

(e) Irrigation or sprinkler components or systems;

(f) Water features;

(g) Above-ground storm water cisterns;

(h) Signs, including the signs or display required by paragraph 74(l) of the Consent Decree;

(i) Benches, trash receptacles, and bicycle racks;

(j) Recreational facilities, such as playground equipment, bocce ball courts, tennis courts, basketball courts, and athletic fields; and

(k) Landscaping, including natural grasses, small trees,

shrubbery, flowers, and potted plants, provided that such landscaping and the anticipated root structure of each landscaping component do not and will not jeopardize the integrity of the Chromium Remedy. Any portion of an athletic field that is covered in natural grass shall be considered landscaping for purposes of the percentage set forth in paragraph 74(j)(v)(4) of the Consent Decree and paragraph 5.2(e)(iv) of this Conservation Restriction.

5.4 Easement for Monitoring, Maintenance, Repair, and Replacement: As between Grantor and Grantee, Honeywell shall remain solely responsible for monitoring, maintenance, repair, and replacement of the Chromium Remedy in accordance with the Consent Decree and shall reserve, or obtain a grant of, an easement for the purpose of such monitoring, maintenance, repair, and replacement. Neither Grantee nor Secondary Grantee, if such grantee is designated pursuant to paragraph 7.3, shall have any responsibility whatsoever with respect to the implementation, monitoring, maintenance, repair, and/or replacement of the Chromium Remedy in the Open Space AOC Property. Honeywell shall be entitled to promptly record such reservation and/or easement and Grantee agrees that the terms, conditions, and restrictions and purposes of such reservation and/or easement, or reference thereto, will be inserted in any subsequent deed or other legal instrument by which the City of Jersey City, Grantor, or Grantee divests either a real property or other recordable interest in the Open Space AOC Property.

6. **Prohibited Activities.** Development at the Open Space AOC Property is prohibited, except insofar as it meets the requirements of the Consent Decree and of paragraph 5 of this Conservation Restriction.

7. **Grantee's Rights.** To accomplish the purpose of this Conservation Restriction, the following rights are conveyed to Grantee:

7.1 **Right of Entry.** The right to enter the Open Space AOC Property during the implementation of the Chromium Remedy pursuant to the Consent Decree at reasonable times and with prior notice for the purpose of: (a) inspecting the Open Space AOC Property to determine if Grantor is complying with the covenants and purposes of this Conservation Restriction; (b) enforcing the terms of this Conservation Restriction; and (c) taking any and all actions with respect to the Open Space AOC Property as may be legal, necessary and appropriate, to remedy or abate any material violations hereof. After the Chromium Remedy has been implemented, Grantee shall have the right to enter the Open Space AOC Property at reasonable times for the purposes above without the need for prior notice.

7.2 **Enforcement.** The right to prevent any improvement, activity on, or use of, the Open Space AOC Property that is inconsistent with the purpose of this Conservation Restriction and to require the restoration of such areas or features of the Open Space AOC Property that may be damaged by any inconsistent improvement or use. For purposes of the enforcement of this Conservation Restriction, Grantee agrees to pursue such enforcement solely before the Court in the Consolidated Litigation and to submit to the jurisdiction of that Court.

7.3 **Designation of Secondary Grantee.** Grantee has the right to designate a Qualified Holder as a Secondary Grantee with the written consent of Grantor, which consent will not be unreasonably withheld. Within 60 days of such

designation, this Conservation Restriction shall be modified by the Parties and duly recorded.

7.4 Allocation of Responsibilities between Grantee and Secondary Grantee. In the event a Secondary Grantee is designated pursuant to paragraph 7.3, then the following shall apply: for so long as Grantee, or any successor in interest to Grantee, remains a holder of this Conservation Restriction, and unless and until Grantee and Secondary Grantee or their respective successors or assigns shall otherwise agree in a writing executed by them in recordable form and delivered to Grantor, Grantee shall be delegated the primary responsibility for monitoring and enforcing compliance with the terms of this Conservation Restriction. In connection therewith, Grantee, or its successors and assigns, shall have sole power and authority, as between Grantee and Secondary Grantee of this Conservation Restriction, to grant or withhold any and all other consents or approvals that may be required to be obtained by Grantor under the terms of this Conservation Restriction. Notwithstanding the foregoing, Secondary Grantee shall be entitled to receive a copy of all notices required to be given to Grantee, and shall be provided with a copy of all requests for approval submitted by Grantor and all written approvals, or denials thereof, given pursuant to this Conservation Restriction. Secondary Grantee's right to exercise rights and remedies conferred by this Conservation Restriction upon Grantee, other than as provided in this paragraph, shall become effective upon Grantee's dissolution, in the event that Grantee has failed to name a successor.

8. **Grantee's Remedies.**

8.1 Proceedings upon Violation. In the event that Grantee becomes aware of a violation of the terms of this Conservation Restriction, Grantee shall promptly give notice to Grantor, Honeywell, Jersey City, and Riverkeeper of such violation via certified mail, return receipt requested, and request corrective action sufficient to abate such violation and restore the Open Space AOC Property as closely as possible to the condition that would have existed had there been no violation. Failure by Grantor or Honeywell to cause discontinuance, abatement, or initiate such other corrective action as may be required by the Consent Decree within 90 days after receipt of such notice, or such longer period as may be necessary if the violation cannot reasonably be cured within 90 days, shall entitle Grantee to move the Court to enforce the terms of this Conservation Restriction; to require the restoration of the Open Space AOC Property to its previous condition; and/or to enjoin compliance. If Grantee believes that circumstances are such that immediate action is required to prevent or mitigate significant additional harm or damage to the Open Space AOC Property, Grantee may pursue its remedies without waiting for any period provided for cure to expire and without prior notice.

8.2 Proceedings upon Alteration or Addition to Development. Grantee shall have the right to participate in proceedings under paragraph 5.2(j)(iii) of this Conservation Restriction and paragraph 74(j)(x)(3) of the Consent Decree to prohibit any alterations or additions to the development in the Open Space AOC Property.

8.3 Forbearance. Any forbearance by Grantee to exercise its rights under this Conservation Restriction in the event of any breach of any term of this

Conservation Restriction by Grantor shall not be deemed or construed to be a waiver by Grantee of such term or of any subsequent breach of the same or any other term of this Conservation Restriction or of any of Grantee's rights under this Conservation Restriction. No delay or omission by Grantee in the exercise of any right or remedy upon any breach by Grantor shall impair such right or remedy or be construed as a waiver. Grantor shall not be entitled to assert any defense based upon laches, estoppel, or prescription with respect to any violation of this Conservation Restriction as to which Grantee was not specifically notified by Grantor in writing.

9. **Parties Subject to Conservation Restriction.** The covenants agreed to and the terms, conditions, and restrictions imposed by this grant shall be binding upon Grantor, its lessees, agents, personal representatives, successors, assigns, and all other successors in interest to Grantor. The covenants agreed to and the terms, conditions, and restrictions imposed by this grant shall be binding upon Grantee(s), their lessees, agents, personal representatives, successors, assigns, and all other successors in interest to Grantee(s).

10. **Termination.**

10.1 This Conservation Restriction is intended to be of unlimited duration, subject only to termination as provided in paragraph 10.2 of this Conservation Restriction, and therefore may not be terminated solely by mutual agreement of Grantor and Grantee.

10.2 This Conservation Restriction may be terminated upon application to the Court of any Party to the Consent Decree when no hexavalent or total chromium contamination remains in Open Space AOC Property, whether in soils or in

groundwater, in excess of the levels specified for Unrestricted Use in the NJDEP Chromium Directive or any more restrictive standards for Unrestricted Use in place at the time, whichever is more restrictive. Upon Court approval of termination of this Conservation Restriction, Grantor shall conduct a public hearing in accordance with N.J.S.A 13:8B-5 and Grantee(s) shall release the Conservation Restriction and shall execute, at the request of Grantor, a release of this Conservation Restriction and any other instrument to that effect deemed necessary or desirable.

11. **Assignment.**

11.1 Right to Assign. Grantee, and any future assignee of this Conservation Restriction, may with the prior written consent of Grantor, which consent will not be unreasonably withheld, transfer and assign this Conservation Restriction and the rights and obligations created hereby, in whole or in part, to one or more Qualified Holders as defined in paragraph 3.15. The assignee shall simultaneously with such assignment assume the obligation to carry out the conservation purposes for which this Conservation Restriction is granted.

11.2 Executory Limitation. In the event that a Secondary Grantee has been designated pursuant to paragraph 7.3 and the Grantee dissolves without having assigned all of its rights and interest in the Property and delegated all of its responsibilities under this Conservation Restriction to one or more Qualified Holders, such rights and responsibilities shall be vested in the Secondary Grantee pursuant to paragraph 7.4. In the event that a Secondary Grantee is not designated pursuant to paragraph 7.3 and the Grantee dissolves without having assigned all of its rights and interest in the Property and delegated all of its responsibilities under this Conservation

Restriction to one or more Qualified Holders, such rights and responsibilities shall be vested in another Qualified Holder pursuant to a *cy pres* proceeding in the Court. Grantor and Honeywell shall have the right to appear in any such proceeding as interested parties. In the event that a Secondary Grantee is designated pursuant to paragraph 7.3, and such Secondary Grantee dissolves without having assigned all of its rights and interest in the Property and delegated all of its responsibilities under this Conservation Restriction to one or more Qualified Holders, Grantee may designate another Secondary Grantee pursuant to paragraph 7.3.

11.3 Release of Grantee's Further Obligations. The holder or holders of this Conservation Restriction immediately before any assignment or judicial re-vesting pursuant to paragraph 11.2 shall thereafter have no further obligation to monitor compliance with, or enforce the provisions of, this Conservation Restriction, provided that the assignee meets the requirements set forth above and has assumed the obligation to monitor and enforce this Conservation Restriction.

Schedule A
MAXIMUM LEGAL DESCRIPTION
PRE-REMEDATION OPEN SPACE AOC PROPERTY
BLOCK 1290.1 Lots 11W, 11Y, 11H, 17, 18, 19, and 20
CITY OF JERSEY CITY
HUDSON COUNTY, NEW JERSEY

The Open Space AOC Property that is the subject of this Conservation Restriction is intended to consist of a parcel of land which will be bounded by underground Hydraulic Barrier Walls that have not been fully constructed as of the date of this instrument. Accordingly, the parties agree that until such time as construction of the Hydraulic Barrier Walls is completed and an Amended Conservation Restriction is approved by the Court as provided below, the legal description of the Open Space AOC Property shall be as set forth in the metes and bounds description and diagram attached hereto as Exhibit A. The parties further agree that such legal description is subject to revision as provided herein.

Upon completion of construction of the Hydraulic Barrier Walls, Grantor will cause the Open Space AOC Property to be re-surveyed (the "As-Built Survey") with the perimeter of the Open Space AOC Property to be the outer facing wall of the Hydraulic Barrier Walls, as constructed. Grantor shall further cause a metes and bounds description (the "As-Built Description") to be prepared based on the As-Built Survey. Following preparation of the As-Built Description, Grantor shall request that the Court amend the order which, pursuant to paragraph 74(b)(i) of the Consent Decree, embodies this Conservation Restriction ("the Conservation Restriction Order"), by substituting the As-Built Description for the metes and bounds description set forth in Exhibit A and thereby creating an Amended Conservation Restriction. Once the Conservation Restriction Order is so amended by the Court, Grantor shall record the Amended Conservation Restriction in the office of the Hudson County Register, without the need for execution or consent, written or otherwise, by Grantee.

Upon recording the Amended Conservation Restriction, the As-Built Description shall supersede, replace and make null and void the legal description set forth in Exhibit A to this Conservation Restriction.
