**Subject: Annual Notice to Stakeholders/Utilities
SA-5 - Consent Decree**

This letter documents Honeywell's compliance with the obligation to provide an annual update notice to New Jersey One Call and other underground alert hotlines regarding site conditions and activities at Site 079 (Ciasulli Property), pursuant to paragraph 81 of the Consent Decree Regarding Sites 79 and 153 South. The update letters are being transmitted to New Jersey One Call as the appropriate underground utility hotline in New Jersey, and also to the individual utility companies with services in the area of the Ciasulli Property. Copies of the notification letters are attached for reference.

No remediation activities have occurred at the Site since our last annual notice on April 21, 2020. In 2020, post-remediation cap inspections and reporting continued under the existing Deed Notice, Remedial Action Soil Permit, and Long-Term Monitoring Plan.

The notification letters will also be posted on a web site, as specified in paragraph 81 of the Consent Decree Regarding Sites 79 and 153 South. Honeywell is currently using the following web site to provide information on the status of the chromium remedial actions: www.jerseycitychromiumcleanup.com.

If you have any questions, please feel free to call me at 973-455-3302.

Sincerely,

A handwritten signature in blue ink that reads "Maria Kaouris".

Maria Kaouris

Chromium Remediation Director
